

MUIRURI CHRISTOPHER NJUGUNA

Developer & Freelancer

Ongata-Rongai, Kajiado County, Kenya | +254 792 819 977 | chrismuiruri668@gmail.com

Portfolio: christopher-muiruri-portfolio.netlify.app

PROFESSIONAL SUMMARY

I am a Software Developer with experience building full-stack applications, backend systems, mobile applications, and data-driven solutions using Kotlin, Python, JavaScript, React.js, Node.js, SQL/NoSQL databases, and cloud technologies. Skilled in developing reliable, scalable, and user-focused software while applying strong knowledge of software architecture, APIs, database optimization, and system operations. With a background in IT infrastructure, networking, and technical support, I bring a well-rounded understanding of both software development and technology environments. Passionate about continuous learning, emerging technologies, artificial intelligence, and creating efficient solutions that solve real-world problems and deliver value to users and businesses.

TECHNICAL SKILLS

- **Languages & Frameworks:** Kotlin (Jetpack Compose), Python, Java, C, C++, VB.NET, JavaScript, React.js, Node.js, Express.js
- **Databases & Analytics:** MySQL, PostgreSQL, MongoDB, Database Optimization and Data Visualization.
- **IT Infrastructure & Networking:** Network Administration, Enterprise Hardware Diagnostics, CCTV Security Frameworks, Workstation OS Management
- **Developer Tools & Methods:** Agile Teamwork, Version Control, RESTful APIs, Cross-Fault Isolation, Systems Architecture

WORK EXPERIENCE

Junior Data Analyst | Doodle Solutions

Doodle Solutions is a data-driven enterprise service provider delivering analytics, database optimizations, and business intelligence reporting for client decision-making.

- Structured and executed complex MySQL and MongoDB queries to analyze enterprise datasets, directly supporting strategic operational choices.
- Designed and published dynamic data dashboards and visual reports, enhancing stakeholders' visibility into key business operational metrics.
- Optimized existing data pipeline workflows, reducing query execution latency and increasing data accuracy across reporting tools.
- Collaborated with cross-functional teams to parse raw transaction data into actionable enterprise intelligence.

Junior IT Support Engineer | Daima Dairy Plant (Devyani Food & Industries Kenya Ltd)

Devyani Food & Industries Kenya Ltd operates Daima Dairy Plant, a large-scale manufacturing unit producing dairy products across East Africa.

- *Managed enterprise IT infrastructure, ensuring high availability and reliable support for manufacturing operations.*

- *Configured and maintained network infrastructure, including routers, switches, and wireless connectivity.*
- *Delivered Tier 1 and Tier 2 technical support, resolving hardware, software, and network issues with minimal downtime.*
- *Administered enterprise CCTV systems to support facility security and operational monitoring.*
- *Maintained relational databases, ensuring data integrity, backups, and system reliability.*
- *Performed preventive maintenance, system updates, and IT asset management to optimize infrastructure performance.*

Cybercafe Tech Support & Administrator | Rongai Cyber (April 2020 – August 2021)

Diagnosed and resolved hardware/software technical issues while managing high-volume public digital identity services.

- *Diagnosed, debugged, and repaired software faults and terminal hardware failures across a high-density multi-station client network.*
- *Successfully administered high-volume e-government transactions, managing complex filings across KRA iTax, E-Citizen, and passport application portals.*
- *Configured, patched, and deployed OS profiles and security policies across workstations to maintain continuous business uptime.*

PROJECTS

Developer Portfolio Website

React | Node.js | Express | JavaScript

- *Designed and deployed a responsive portfolio showcasing software projects, technical expertise, and professional experience.*
- *Developed RESTful backend APIs to handle contact submissions and application data.*
- *Optimized performance and user experience through modular architecture and responsive design.*

Glencare – Ambulance Dispatch Platform

Kotlin | Android

- *Developed a mobile application connecting patients with nearby ambulance services through real-time request and dispatch functionality.*
- *Implemented location-based features and intuitive user workflows to improve emergency response accessibility.*
- *Applied modern Android development practices to build a scalable and maintainable application.*

MamaFua – Home Services Marketplace

Kotlin | Android

- *Built a mobile marketplace connecting households with verified cleaning and laundry service providers.*
- *Developed user authentication, service discovery, booking workflows, and provider management features.*

- *Focused on delivering a seamless user experience through responsive interface design and efficient application architecture.*

EDUCATION

- Bachelor of Science in Computer Technology — Multimedia University of Kenya (Sept 2021 – July 2026)
- Software Development Certification – PowerLearn Project Organization.
- Kenya Certificate of Secondary Education (KCSE) — Mama Ngina Kenyatta Secondary School (Jan 2015 – Apr 2019)
- Kenya Certificate of Primary Education (KCPE) — Rongai Primary School (2006 – 2014)

CERTIFICATIONS & TRAINING

- **Software Development Program** — Power Learn Project (PLP)
- **PLP Academy & Hackathon Participation** — Power Learn Project (PLP)
- **Network Support & Computer Hardware Basics** — Cisco Networking Academy
- **Python Programming, SQL (Intermediate), Introduction to SQL, Web Development & JavaScript Game Development** — SoloLearn(Level 9)
- **Data Protection, Computer Skills for Business & Interpersonal Communication** — Alison
- **Academic Programming Foundations (C, C++, Java, VB.Net, MySQL)** — Multimedia University

Completed intensive Software Development programs specializing in full-stack web development, Android application development, and cloud computing. Gained practical experience building, deploying, and managing applications using AWS and modern software engineering practices.
